

JetQuik and Corporate Flight Management will host an Open House on Monday, December 8, 2008.

JetQuik President Bill Minkoff will present a briefing on [The Impact of new generation VLJs and how they will change the way we fly](#). Cameron Gowans, Regional Director of Sales for Embraer will also be on hand to brief attendees on the certification of the new Embraer Phenom 100 Executive Jet.

During the meeting CFM plans to announce the development of a totally new derivative of the very successful Cirrus SR-22 by Cirrus Design. Plans for the prototype along with concept drawings and technical data will be presented at the event.

Mr. Larry Riddle, Vice President of L-3 Communications will be demonstrating an SR-22 equipped with L-3's new SmartDeck® the intuitive and integrated full avionics system developed for the Cirrus SR-22. L-3 Communications (NYSE: LLL) has recently been selected by Cirrus Design to customize the innovative SmartDeck® Flight Instrument Controls and Display System for the Cirrus Vision single-engine personal jet.

Joining JetQuik for this presentation will be Allen Howell, Chairman of Corporate Flight Management along with Randy Harmon of Wings of Eagles and Blake Tumbleson of CFM Jet.
